Subject: [REDACTED]

Hi Linda

Have you heard back from anyone on the [REDACTED] case? Mike Halpin is contacting the ADA. The defense counsel in the case left me a voice mail message indicating that regardless of the lab transfer he expected to receive the requested documents on Thursday as well as your presence in court. I have not yet returned his call. Mike Halpin will appear for the Lab on the Keeper of records issue and inform the judge of the issue and need for additional time to sort out the transfer issues as they impact control and custody of the records. You are still on the hook to testify. The only concession the defense attorney made in his voice mail was to allow you to be placed on standby. Mike Halpin is going to contact Natalie and see if she or someone from her office can attend w/him. We are going to try to sort out these issues today. Until you hear back from us, you will need to make yourself available for the Thursday hearing.

Steve
